**RE: Artesia Health Resources Addition
Artesia, New Mexico**

Dear Levi:

I really enjoyed working with you and Marc on the addition and renovation of the Artesia Health Resources Project. Over the past 25 years as a Principal and Architect this was one of my more pleasurable experiences.

I appreciate your continued communication and attention to the project, as well as Marc's quality of supervision and construction.

I look forward to working with both of you again and feel free to call or email me if you need anything.

Sincerely,

ASA ARCHITECTS

Robert S. Price, AIA

Architect
