JOHN LOWE
City Administrator

To whom it may concern,

It is my pleasure to recommend White Sands Construction for any type of construction needed within their large knowledge and skill sets.

White Sands Construction completed a total renovation of a residential treatment facility, with commercial kitchen upgrades, laundry facilities, restrooms, office and bedroom upgrades. They were a pleasure to work with considering there were multiple changes in designs and construction as this project developed into the facility it is today.

Also, White Sands Construction completed a makeover and upgrade to one of our existing fire houses for the City of Carlsbad. This project had numerous challenges such as an active airfield with multiple types of aircraft leaving and arriving. The upgrades had to be completed while allowing access for the working station to and from the runways and taxiways as well as the other needs of the citizens of Carlsbad. Two new apparatus bays were constructed for the additional equipment needed to serve our Airport and the growing areas nearby. Living quarters with sleeping rooms and other facilities for additional staff were built as well.

White Sands was responsive to the wishes of the City Staff for all their needs. I would like to thank the project superintendents and project manager for all their help in completing these projects within budget and time constraints.

A handwritten signature in blue ink, appearing to read "Ivan M. Abell".
