To Whom It May Concern:

Eddy County Facilities hired White Sands Construction to build a secure vestibule in occupied space over a short project schedule. The office could not close during the renovation, and the renovation had to be complete in a matter of weeks. Out of 8 general contractors that were offered the job, White Sands Construction was the only firm that provided a proposal and committed to getting the job done quickly.

The project improved safety and egress in our Treasurer's Office, and we could not be more pleased with the results. White Sands Construction executed the project efficiently with minimal disruption to daily business. They delivered on time, and a little under budget without sacrificing quality.

We are happy customers, and look forward to working with White Sands Construction on future projects.

Sincerely,

Brian Stephens, CCCA
Eddy County Facilities Director
