RE: Recommendation for General Contractor

To Whom It May Concern:

I am writing this letter to recommend White Sands Construction as a General Contractor on any upcoming projects. I have had the pleasure of working with White Sands Construction on a number of projects including five Fire Station work-out room additions and dormitory remodels as well as the construction of a completely new Volunteer Fire Station located in La Mesa, NM.

During the construction of these projects, White Sands Construction was attentive to the project, the owner, and to the design team as well as to their sub-contractors. The abilities and experience that White Sands Construction contributed to our projects allowed them to be constructed and completed within our given construction time frame and their attention to detail allowed our design team to address any construction conflicts before they became costly errors allowing our projects to be completed within budget.

Working with White Sands Construction has been a great experience and I have no doubt that anyone who works with them will be exceptionally pleased with their work and their staff. If you have any questions, please feel free to contact me.

Sincerely,

Abelardo Natividad  
Architect, LEED AP
