RE: Letter of Recommendation

To whom it may concern:

As the President for 50 Arby's Restaurants across Arizona and New Mexico, I recently had the pleasure of working with White Sands Construction as they remodeled the exterior of our Silver City Arby's restaurant in New Mexico.

I have worked with many construction companies while in position for 30+ years. White Sands Construction was easy to work with, completed the project on time and within the budget. I esp. appreciate the lack of change orders that run up the cost of the project and sour the relationship. Project Manager, Levi WilliamSon was in constant contact throughout the entire project. With the assistance of Site Supervisor, John Ballin, the quality of work was outstanding and the original timeline was never in jeopardy. I look forward to working with them again in the near future.

I recommend White Sands as a company you can trust for your construction needs.

Charles R. Harmon  
President  
FX4B, LLC dba Arby's
