To whom it may concern:

We recently completed a new restaurant construction project with White Sands Construction and we couldn't be happier with final building and the entire process. From establishing an initial layout to working with the architect, beginning construction to now post-construction service & follow up, we highly recommend White Sands Construction and cannot wait to do another project together.

Eugene Varbel was the Project Manager on our project and we highly recommend him and his entire staff. Through the construction process, they kept it on and ahead of schedule even while facing challenging/varying weather in Southern New Mexico. When any issues arose, Eugene and his team offered up practical solutions that were quick & efficient and kept the process moving along.

During the entire process, a few things stood out that were exemplary from White Sands Construction:

- 1) The speed of communication & the access I was given
 - a. Eugene and the entire team at WSC were easy to reach via phone call, email, text or a quick in-person meeting at the site to answer any questions I may have had and that was many as this was my first experience doing a new construction building
- 2) The limitless construction & finish options
 - a. From concrete stain & seal colors to the interior layout to the exterior look of stucco & rock: anything I could imagine could be done and was always met with a "We can make that happen" attitude. This brought a lot of trust & reassurance working with this company
- 3) Quality of the work was A+
 - a. Their company oversaw & challenged sub-contractors to provide excellent and "above and beyond" quality in all aspects of the building. If something didn't meet their high standard, they pushed to get it touched up and up to that high-quality standard
- 4) Post-Construction Follow Up
 - a. We went through a very thorough final walk through, was given a binder with all manuals, warranties & contact information. Their insistence on keeping things clean & organized paid off and is a tremendous asset to the overall process

I highly recommend White Sands Construction and I cannot wait to take part in another project with them. If you have any questions on this recommendation, please do not hesitate to contact me.
