To whom it may concern,

My husband and I contacted Catlin with White Sands Construction in 2020 for help navigating the brand-new waters of building a “Ground up” location for our business. Our new endeavor is a Big O Tires in Carlsbad, New Mexico.

We worked with Zeke Greer and Mike Ford. Both individuals went above and beyond any expectations. Our new location is 1 ½ hours away from our home so frequent sites visits became difficult. They kept us updated weekly and sent pictures.

They went above and beyond when issues or concerns came up, and they were always handled with the customer in mind.

We will be using White Sands Construction for any future construction needs. Please feel free to contact us with any questions or concerns.

Thank you,

Tim and Terri Hollander
