

February 4, 2020

To whom it may concern:

We are pleased to provide this reference letter for White Sands Construction.

Over the past few years White Sands Construction has worked with us on two construction projects.

White Sands Construction was able to make our vision a reality.

We found White Sands Construction to be very knowledgeable, professional and co-operative throughout the course of each of the two building projects. They were able to give advice and suggestions throughout the design phase and they stayed on schedule during the building phase. In addition, after construction completion, they have been responsive and thorough in addressing any minor issues associated with the project.

We look forward to working with them again in the future.

We would recommend White Sands Construction to you without hesitation.

Sincerely,

Eric Lucero
