To Whom It May Concern,

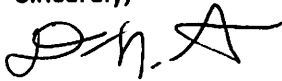

It is with great pleasure I write this letter regarding the quality of work and expertise White Sands Construction provided to our hotel. Taking a 40 year old hotel and modernizing it is no easy task. Every facet of the hotel was thoroughly analyzed as to whether or not it needed upgrading to current code.

White Sands brought great knowledge into expanding rooms, making the hotel more efficient, and adding modern amenities. Adding EIFS, an elevator, adding a fire/life safety system, and cutting concrete walls required a great amount of work and expertise and White Sands was able to do it with ease. Given the Village of Ruidoso's stringent requirements, White Sands was able to meet or exceed the code requirements that were required by the Village.

Our guests are truly happy with the quality of work and they love the new rooms. Even Choice Hotels International has recognized the quality and level of work that went into this beautiful new hotel. Once you step inside everything feels new and the old 70's look is long gone. White Sands truly gave us an amazing hotel and it now allows us to compete with some of the best hotels in town. Our Guest Satisfaction scores are now leading the brand and helping drive revenue. Given the level of renovations this will only help our little village of Ruidoso in the coming years by driving tourism.

Again, a sincere thank you is given to the staff and personnel of White Sands Construction.

Sincerely,

Dhruv Bhakta
