November 19, 2020

I would like to submit this letter of recommendation for White Sands Construction. NMSU-A hired White Sands Construction to renovate the first floor of our Student Services building (3000 sf) into 3 major departments; The Business Office with 1) two large offices, a Cashier Office with 2 service windows, 2) The Human Resource Office with 1) two large offices and a shared confidential file room, and an application room for individuals to fill out work applications, 3) Office of the VP for Business and Finance with VP Office, Kitchenette, and workroom.

The project included all aspects of construction including constructing walls, cabinetry, mechanical, electrical and plumbing upgrades for around \$500,000 and 120-day contract schedule.

White Sands Construction did a great job. They completed the project on time without any major change orders that were not owner requested. They were very professional and worked well with us.

I would highly recommend them for any large or small project.

A handwritten signature in cursive script that reads "Nancy Wilkson".

Nancy Wilkson

NMSU-A Facilities Director
