To Whom It May Concern:

Baja Broadband, in Alamogordo, NM, recently contracted with White Sands Construction, Inc., for renovations in its Call Center facility, located at 901 N. Florida Avenue. The work consisted of creating additional offices and conference room spaces, within the existing facility, to accommodate larger numbers of employees.

From the beginning of the project planning process, White Sands Construction personnel conducted themselves with complete professionalism, working with us to create and implement an affordable plan that would meet Baja's needs. The actual construction work was done to a high level of quality, in a reasonable time frame, with all deadlines met or exceeded.

We are happy to recommend White Sands Construction to other prospective customers. In the event Baja needs additional construction and/or renovation services in the future, we will call on White Sands Construction, again, to assist us.

Regards,
