

June 6, 2013

Whom it may concern:

For 21 years I was a construction inspector for the Air Force at Holloman AFB. In 2011, I retired out of the Saber Office. (Ron Harrington Retired GS11 Saber Project Manager)

I have been asked to write a letter of recommendation for White Sands Construction.

White Sands Construction has had the Saber contract as a standalone company and a mentor with another contractor. They also had an IDIQ contract. White Sands Construction handled all contracts with the utmost efficiency; within budget and the time frame allotted. The jobs were always done with the least amount of disturbance to the user and care taken to ensure that the contract requirements were met and that user was pleased with the completed job. The contractor was willing to work with the shops and any schedule needed by users.

Ron Harrington
