Catlin Curry
White Sands Construction

Dear Catlin;

On Behalf of all the team involved in the construction of the Buffalo Wild Wings located in Alamogordo, NM, I wanted to express our appreciation for the excellent job performed by White Sands Construction.

Your Superintendent Mr. Steve Malett did an exemplary job under very tight timeframes. Our staff has been impressed with their thoroughness and enjoyed the working relationship and collaborative approach with the design team.

Having worked with contractors in the restaurant industry over 25 years, White Sands Construction is truly differentiated from others in the marketplace. To describe your firm to other potential clients, I would not hesitate to state that it can consistently perform in a difficult and competitive environment; that it is proactive in style and demonstrates a commitment to client issues and satisfaction.

We look forward to a continued working relationship with you & White Sands Construction and other franchisees in the future.

Sincerely
