Re: White Sands Construction

To Whom It May Concern:

Hobbs Municipal Schools selected White Sands to complete a project on the campus of Hobbs High School in the summer of 2013. The schedule was demanding from the beginning and continued throughout completion of the project. As Director of Operations, it is my responsibility to the taxpayers of Hobbs Municipal Schools to deliver a quality product on budget. White Sands satisfied my requirements and a firm that I can trust to complete work for the students and staff of Hobbs Municipal Schools. White Sands seems to have adopted a "No Excuses" mentality and not once was there a no way out solution. The team of White Sands communicated with the staff of Hobbs Schools and were patient with the parameters established for this project.

I highly recommend White Sands for projects and look forward to future opportunities with White Sands Construction.

Please call with any questions.

Sincerely,

Gene Strickland
Director of Operations
Hobbs Municipal Schools
