To Whom It May Concern:

I have had the pleasure of working with White Sands Construction on a very challenging project both in terms of complexity and schedule and have found their entire staff from the main office to the field personnel very professional.

White Sands Construction rose to the occasion at various times during the project to offer solutions to building issues during construction. What I appreciated most was their "can-do" attitude. Rather than complain and blame they came forward with a genuine attitude of how to solve the problem. Their construction stayed on schedule and within the Owner's budget and I never took issue with their quality of workmanship.

I actually enjoyed working with a contractor that made the project feel like a true team effort. We were delighted that the State of New Mexico chose them as the general contractor on the State Police District 4 Headquarters in Las Cruces (which we designed).

I highly recommend White Sands Construction as a builder and more importantly as a team member of your building project. If you have any questions, please feel free to contact me.

Best regards,

Richard Haas, AIA
