To whom it may concern:

This letter is written on behalf of White Sands Construction, who was the general contractor on my two last projects. White Sands built my IHOP Restaurant located at 1413 White Sands Blvd Alamogordo, N.M. in record time far exceeding my expectations. White Sands Construction also built my IHOP located at 2529 S. Canal Carlsbad N.M. in record time making the last two projects I have done seamless and more profitable than any other I have recently done. The quality of work and ability to work with my company was excellent.

I am currently working with White Sands on several other projects including a \$1.5 Million Dollar Carl's Junior, \$2.0 Million Dollar Mattress Firm, and another IHOP Restaurant to name a few. My company's has been more successful since teaming up with White Sands Construction.

I recommend them to build any type of commercial building, from design build to simple project management. If you have any questions please contact Mike Dixson at (575) 532-9779
