Executive Vice President & Chief Project Manager

2009–2026 (17 Years) | White Sands Construction, Inc.

- Provides executive oversight for all active construction projects company-wide.
- Leads project management operations across commercial, municipal, and federal work.
- Oversees projects from preconstruction through closeout.
- Coordinates Project Managers, Superintendents, and subcontractors to achieve schedule, quality, and cost objectives.
- Serves as executive liaison with Owners, Architects, Engineers, and key stakeholders.
- Directs project scheduling, sequencing, execution, and delivery across all phases.

Project Experience & Market Sectors

- Concurrent management of multiple commercial construction and renovation projects across New Mexico and West Texas.
- Municipal and public works projects requiring coordination with multiple authorities having jurisdiction.
- Federal and regulated projects with elevated compliance, documentation, and reporting requirements.
- Healthcare, medical office, and specialty-use facilities requiring phased construction and operational coordination.
- Projects involving complex scheduling, budgeting, and subcontractor coordination across active sites.
- Occupied and operational facilities requiring careful planning, communication, and risk management.
- Multi-trade projects coordinating Superintendents, subcontractors, suppliers, and design teams.
